

Planning summary - new projects

The blue square indicates the existing National Grid substation. The new pylon route from Norwich to London is likely to require some expansion, but is not shown on the map. The other projects are:

- 1 Thickthorn Junction
- 2 Harford Bridge industrial estate
- 3 Hornsea Three substation, battery storage and cable trench
- 4 Potential UK-Denmark interconnector substation (cable trench not shown)
- 5 Dudgeon and Sheringham Shoal Extensions substation and cable trench
- 6 Bloy's Grove solar farm and existing Brick Kiln Lane solar farm
- 7 Bracon Ash solar farm
- 8 Mergate solar farm
- 9 Mangreen and Stoke Lane battery storage sites
